FIT FOR THE JOB FLEXIBLE SANDING BLOCKS

- High quality aluminium oxide abrasive that significantly outlasts silicon carbide-based sandpapers. Available in two grits:
  - Fine/medium
    - Ideal for final surface preparation before painting and varnishing as well as removing surface imperfections
  - Medium/coarse
    - Ideal for sanding rougher wood or removing one or two layers of previous coatings ready for painting, priming, staining or varnishing.
- Ideal for sanding a range of surfaces to a smooth finish including wood, metal and plaster.
- High density foam sponge gives excellent flexibility with easy grip for comfortable working.
- Excellent for irregular surfaces: the flexible sponge moulds easily to curved, moulded or profiled surfaces such as pipes, window sill edges, furniture, architraves, skirting board, balustrades, spindles and more.
- Can be used both wet and dry and is washable
