Natural Roofing Slates

SOBRANO™

Brazilian Natural Roofing Slate

Sobrano dark grey

Sobrano light grey / green

A high-quality slate with a uniform aesthetic appearance, subtle shading variation and a natural flatness that brings out it's beautiful characteristics. This slate is unaffected by sunlight and has virtually no unstable minerals such as pyrites, carbon or unoxidized irons, withstanding the most severe weathers.

FIRST **5-7mm**

100 years

Sizes (mm)	**500 x 250**
	600 x 300
	500 x 375
	600 x 450

Test Results

SO2 Exposure Test:	**Complies S1**
Thermal Cycle Test:	**Complies T1**
Water Absorption:	**Complies W1**
Carbonate Content:	**Complies <2%**

Technical Specification

European Standard:	**EN 12326-1**

* Due to the unique geological properties of this type of Brazilian slate, it requires additional care when handling. We recommend cutting Brazilian slates using a disc machine and hook fixing, rather than nail fixing.
