

ProDec Long Life Blue Masking Tape

50mm x 50m | Product code: PLLMT50

Premium masking tape manufactured from high-quality, easy-tear crepe paper. Designed for walls and other suitable surfaces, producing sharp paint edges with smooth removal.

Technical specifications

Product type	Long-life masking tape
Dimensions	50mm (2") width x 50m length
Backing material	High-quality, easy-tear crepe paper
Adhesion grade	Standard adhesion
Heat resistance	Up to 38 degrees C (100 degrees F)
UV resistance	UV-resistant adhesive
Removal period	Up to 21 days after application; always test a small area first

Suitable surfaces

- Walls
- Plaster
- Wood
- Metal
- Glass
- Mouldings
- Switches and sockets

Performance and use

- Produces sharp, clean paint edges.
- Applies evenly and releases smoothly when peeled.
- Leaves no residue when removed as directed.
- Avoid hot spots such as conservatories and south-facing windows to prevent excessive adhesion or "baking on" caused by heat.
- Suitable for bare and fully cured painted surfaces.

Application guidance

Use on bare surfaces or previously painted surfaces where the coating has fully cured for more than 28 days. The manufacturer advises testing a small area before full application. The tape may remain applied for up to 21 days, subject to the surface and conditions.
